

Fucking and Feminism

The [Village Voice](#) (2006, aber immer noch empfehlenswert): „Fucking and Feminism – Blowjobs, casual sex, and rape fantasies are under attack“.

I encourage all men and women to make the sexual choices that are right for them, regardless of what's „cool.“ I can't tell you how to fuck. Instead of looking to gurus, activists, porn stars, and how-to books, you'd be better off looking inside, spending some quality time with your fingers around your cock or pressed against your clit figuring out what sets you off.

Die Autorin [Rachel Kramer Bussel](#) sagt, wie es ist: „No one has the right to tell you how to fuck.“ Aber wer das zitiert, kommt schon in jeden Jugendschutzfilter wegen „obscene words“ oder weil Puritaner „easily offended“ sind.
