

# Internet Censorship and Control

[Hal Roberts | Internet Censorship and Control](#) (via [Light Blue Touchpaper](#), University of Cambridge): „In the following collection, published as an open access collection here and as well in a special issue of IEEE Internet Computing, we present five peer reviewed papers on the topic of Internet censorship and control. The topics of the papers include a broad look at information controls, censorship of microblogs in China, new modes of online censorship, the balance of power in Internet governance, and control in the certificate authority model.“
