

Karamba!

[Huffington Post](#): „Karamba Diaby, Senegal-born Chemist, Becomes Germany's First Black Lawmaker“

Although nearly one in five of Germany's 80 million people are immigrants, or the children or grandchildren of immigrants, relatively few have made it into the federal legislature. Until now there were no black lawmakers in Parliament, despite more than 500,000 people of recent African origin believed to be living in Germany.

Hierzu ein Hinweis ([felis](#) via Twitter): Hallo @SPIEGELONLINE, Afrika ist kein Land und Karamba Diaby ist Deutscher, nicht „Afrikaner“.
