

Banning smoking in public places oder Tugendterror?

[Al Jazeera](#): „In early January, following a [Ministry of Health](#) decision to continue enforcing a 2008 public health law [banning smoking in public places](#)...(...) The fact that tobacco use is one of the leading factors contributing to non-communicable diseases (NCDs), such as cancer and cardiovascular disease, is well established, and NCDs – which are responsible for about half of all deaths in Jordan – cost the country more than \$1.3 billion annually.“

Vorbildlich. SCNR
