

A well regulated Militia oder: Waffen für das Volk

„Even though Switzerland has about 150,000 active military personnel, if the nation gets invaded almost 4,000,000 citizens are immediately available for military service with another 3,000,000 fit for service as well. Basically, in a heartbeat, the nation gets all of its able-bodied citizens ready to pick a fight with the invaders“. ([The Independent](#))

Reminder: „Waffen für das Volk“ bzw. dass es eine Volksmiliz geben sollte, hat immer die Linke gefordert. Die Idee kommt aus der [Verfassung der USA](#):

„A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.“
