

Remember when that extinct Pterosaur flew over Idaho?

[I Fucking Love Science](#): „The 10 Biggest Scientific Hoaxes Of 2015“.

“Oh my God! There’s an extinct flying reptile in the skies over Idaho” said no one, we hope, when they saw this easy-to-spot CGI [hoax video of a pterosaur](#) flapping its wings over the northwestern U.S. state.

Hihhi.
