

Basic Middle East Test

Israeli-Palestinian Conflict 101

Illegally Occupied Palestinian Territories

Not illegal!

Not occupied!

Not Palestinian!

Learn the facts:

1. Israel legally gained control of Judea and Samaria, in a defensive war. These territories never legally belonged to Jordan, or any other country. They were under British Mandate until 1948.
2. Therefore, the territories in Judea and Samaria are NOT occupied, but disputed.
3. There was NEVER a Palestinian state, not sovereignty, anywhere in the world.

Next time you hear somebody using the term "occupied Palestinian territories", remember: **they failed the most basic history test.**
