

Mars

[Mars-Panorama](#) – Curiosity Rover

Mars Panorama – Curiosity rover: Martian solar day 2082 – High resolution 360° panorama <https://goo.gl/K1N2LD>

Image credit: NASA/JPL-Caltech/MSSS/Andrew Bodrov

This panorama combines 83 exposures taken by the rover's Mars Hand Lens Imager (MAHLI) during the Sol 2082 of Curiosity's work on Mars (June 15, 2018)

A Martian dust storm has reduced sunlight and visibility at the rover's location in Gale Crater.

You can find all interactive panoramas of #Mars by NASA's #Curiosity Rover here:
