

Brine Pits, preview

[Wie schon erwähnt](#), statte ich gerade eine Sim in Secondlife aus, die am 2. Oktober eröffnet wird. Thema hier: Solegruben in Salzminen (das „Wasser“ blubbert und bewegt sich).

In places, the „open pits“, the brine pits are exposed on the surface, where they are fed by springs from the underground rivers, which prevents their dessication by evaporation, which would otherwise occur almost immediately in the Tahari temperatures. Men do not last long in the open pits.
