Dear subscribers, we have received a great number of letters of solidarity from South Africans, both individuals and organizations. We appreciate your support and glad you decided to stand with us today, when Russia, like 80 years ago, is fighting Nazism in Ukraine!

Sorry, but we can't stay silent on this one, it's just far too cynical. What  is doing in  is slaughtering innocent children, women and men for its own gain. It's definitely not "fighting Nazism". Shame on anyone who's falling for this. (Sadly, we're kinda experts on Nazism.)

Sadly, Germany was silent all these 8 years. Where were you, experts? What you really should be sorry for, is for failing to persuade Ukraine to implement Minsk Agreements and sit down for negotiations with Donetsk and Lugansk, as envisaged in them.
