CREST OF UKRAINE & THE KHAZARIAN TAMGA

Design similarities are obvious. That cannot be by chance. Ukraine used to be ruled by the Khazarian empire, which converted en masse to phariseic/kabbalistic judaism in the 9th century A.D. These khazar converts were the forebears to modern "ashkenazi" jews, who have no relation to biblical Hebrews, semitic peoples or the land of Israel. Khazars believe strongly in kabbalistic magic which involves Moloch worship and channelling of power through "sigils". The Ukrainian coat of arms is indeed such a symbol, which was originally the Khazarian tamga. The modern Russo-Ukrainian "conflict" is in fact an effort of the Khazarian ruling elite to recover their homeland before they usher in their Talmudic "world to come".
