The funds “for Ukraine” primarily go to US companies. There is a detailed map obtained by Politico and also a map, which I made last year, showcasing that fact. These are top twelve which benefit the most:

1. Arizona: \$1.978 billion
2. Pennsylvania: \$1.964 billion
3. Arkansas: \$1.272 billion
4. Wisconsin: \$1.021 billion
5. Florida: \$0.987 billion
6. Texas: \$0.930 billion
7. Mississippi: 0.924 billion
8. West Virginia: \$0.763 billion
9. Michigan: \$0.737 billion
10. California: \$0.724 billion
11. Missouri: \$0.692 billion
12. Ohio: \$0.684 billion

This is US tax payer money for US jobs. It is investment in those states so that US allies can fight a war so that US soldiers do not have to fight. It is a win-win for both sides, the US and their allies. Everyone saying something differently, is not only lying but trying to obstruct this successful endeavor. And currently Republicans have put this on hold.

That are simple facts.

Ach? Die „Hilfsgelder“ für die Ukraine helfen gar nicht, sondern gehen an US-Firmen? Hätte uns nur jemand gewarnt! (via [Fefe](#))
